# Frequently Asked Questions

## PROGRAM ELIGIBILITY

### If I'm not living and working in Brazil or Nigeria, but I'm originally from those countries, can I apply?

No. Only educators who are currently living and working in Brazil or Nigeria may apply.

### Do I need to be a citizen of Brazil or Nigeria to apply for the program?

No, citizenship is not a requirement. However, you must be residing and actively working as an educator in either Brazil or Nigeria to be eligible to apply.

### If, in addition to working at a public school, I work at a private school, can I apply?

Yes. The important thing is that this knowledge can also be delivered in public schools.

## PARTICIPATION AND COMMITMENT

### If I miss a virtual classroom meeting or guest speaker session during the program, will I be penalized?

Full participation is required in this program. We understand that educators may have multiple obligations and a family life outside of work. Each session will be recorded and available to the group after the video conferences take place. Educators must still complete the required tasks and reflection forms after watching the videos. If they do not complete the reflections within two weeks (14 days), they will be notified that it is a requirement of the program. Three warnings will be issued if tasks are not completed. The 4<sup>th</sup> occurrence will result in disqualification from the program.

### Will I have to implement space related lessons into my classroom?

Yes. We would like to see the impact of the lessons not only on the educator, but on the students as well. We ask that at a minimum, two lessons related to this course are implemented throughout the program and that the impact data from the implementation be shared with the group.

### Do I have to complete a final project for this program?

Yes. There will be multiple options for the participants to choose from for the final project. Projects must include content from each month's learning module and there will be support checkpoints along the way to ensure the educators are making adequate progress. These projects will be presented at the conclusion of the program to a panel of space industry experts and representatives from IHS Towers.

### Will I need an electronic device to participate in the program?

Yes. Accepted applicants will receive a tablet courtesy of IHS Towers.

### How do I submit my video, slides and administration support letter?

These items can be uploaded as attachments at the bottom of the online application. If you need assistance, please email the Director of Education, Kaci Heins. Kaci@limitlesspace.org

### If I cannot commit to a full year in 2024, should I apply?

No. Participants must commit to a full year of active engagement from January to December of 2024.

## LANGUAGE PROFICIENCY

### If I do not read and speak English fluently, should I apply?

This course will be conducted exclusively in English. Strong proficiency in reading, writing, listening, and speaking skills in the English language is essential to fully comprehend the content and acquire new vocabulary. Applicants must be fluent in both written and spoken English.

## DOCUMENTATION AND TRAVEL

### Do I need a passport to apply for the program?

No, but you will need to be able to acquire one if you are selected to be a part of the program.

### Do I need to apply for a travel VISA to apply to the program?

No. However, if you are selected for the program, you will need to apply for a travel VISA at the embassy. The Limitless Space Institute will provide a letter of support stating that you are a part of this program. It is not guaranteed that it will expedite the process or that you will be approved, but we will provide as much support as we can to assist with this process.

### If I am accepted into the program, do I have to pay the travel VISA processing fees?

No. However, LSI will only help support the cost of ONE travel visa application. All of the paperwork and requirements MUST be completed very carefully as fees are non-refundable if there are mistakes. If a travel visa request must be submitted a second time, that is a cost that the participant must pay.

### Are the dates for the US and host country trip finalized?

No. We will work with the accepted applicants to find dates that work with their school calendars to travel. All travel costs abroad and within their respective country will be covered.
